EDUCATION

Western Oregon University
Bachelor of Science in Computer Science

Monmouth, OR
June 2025

EXPERIENCE

Computer Science Grader

January 2025 – Present

Western Oregon University

Monmouth, OR

- Evaluated student code emphasizing accuracy, efficiency, and code readability
- Provided constructive, detailed feedback on assignments to help students understand mistakes and improve their problem-solving approach
- Maintained grading consistency by following rubrics and collaborating with professors

Computer Science Tutor

May 2024 – Present

Western Oregon University

Monmouth, OR

- Provided one-on-one tutoring sessions for students in computer science subjects, including data structures, algorithms, databases, and software development
- Assisted students with programming languages such as Python, C#, HTML/CSS, and JavaScript, helping them debug and optimize code
- Helped with debugging and troubleshooting code in Visual Studio Code and Azure Data Studio
- Explained key software engineering concepts like object-oriented programming, version control, and agile development
- Communicated complex technical concepts in a clear and accessible manner to students with varying levels of experience

Sr. Pharmacy Technician

March 2020 – December 2024

Adventist Medical Center

Portland, OR

- Prepared and dispensed medications, including oral, IV, and unit-dose medications, ensuring compliance with pharmacy regulations and patient safety
- Contributed to quality improvement initiatives by optimizing pharmacy workflows, enhancing efficiency, and improving patient care outcomes
- Assisted in training new pharmacy technicians, enhancing team productivity and knowledge sharing
- Completed continuing education credits to stay current with pharmacy practices and regulatory standards

PROJECTS

Movies Made Easy | *ASP.NET MVC, C#, HTML/CSS, JavaScript, Bootstrap, Git* January 2025 – June 2025

- Designed and developed a web application that allows users to search for movies and TV shows to find their available streaming services
- Worked within an agile development team, actively contributing to team discussions, delivering incremental updates, and focusing on continuous enhancement of the application
- Prioritized ADA accessibility by implementing screen reader compatibility, font size/style customization, and color contrast enhancements to ensure an inclusive user experience
- Integrated third-party APIs to fetch streaming availability for movies and TV shows from multiple providers

Knitting Pattern Database | *ASP.NET MVC, C#, HTML/CSS, JavaScript, Bootstrap, Git* January 2025

- Developed a personal web application to store, categorize, and organize knitting patterns from various websites
- Developed a user-friendly interface, enabling smooth navigation and efficient pattern management
- Implemented search and filtering functionality to help users quickly find patterns based on tags, difficulty, or type
- Created a Current Projects feature, allowing users to add and track ongoing knitting projects for easy access

TECHNICAL SKILLS

Languages: Python, C#, JavaScript, HTML/CSS, SQL

Frameworks: ASP.NET MVC, Entity Framework, Bootstrap

Developer Tools: VS Code, Visual Studio, Azure Data Studio, Git
